Developer - Movement

Dec 2016 - Feb 2019

- Launched a unique web app as the Lead Developer for an award winning Fanta Halloween Campaign. Used Google Vision, Amazon Polly and the Instagram API to create a dynamic and personalised music video using the users instagram images.
- Implemented designs and developed several websites for clients including Coca-Cola
- Designed prototypes and API's for clients and in-house projects e.g. Raspberry PI slackbot
- Mentored junior developers and managed the in-house development architecture with AWS
- Technologies used: NodeJS, ReactJS, LAMP/MEAN stacks, Git, Jest, Webpack

Junior Ad Products Developer - Immediate Media

Aug 2016 - Nov 2016

- Developed microsites and ad products for clients such as Radio Times and BBC goodfood
- Introduced animations and parallax features to the company website
- Brought my expertise in Javascript and Agile best practices to help train the team
- Technologies used: Javascript, AngularJS, Wordpress, Sketch, HTML5 and SASS

Contract Web Developer - WCRS

Aug 2015 - Nov 2015

- Front-end testing, quality control, error and bug fixing under tight design specification
- Rapid familiarisation with a large, unfamiliar codebase and workflow
- Worked abroad in San Jose with Apple for their iPhone 6 launch
- Technologies used: HTML5, CSS3, SVN and Photoshop

Freelance Software Developer - Founders & Coders

Jan 2015 - Aug 2016

- Selected for an eight week competitive web development course
- Agile and project based learning, building new applications with new frameworks weekly
- Introduced to TDD very early, focused on user stories and writing tests before code
- Mentored new students and worked on freelance MVPs and private projects after graduation
- Developed an educational notes reminder MVP using ReactJS, NodeJS and MongoDB
- Developed a responsive council website using Jekyll
- Lead a team working on a photography social platform using Hapi, Bootstrap and Stripe API
- Technologies used: NodeJS, Javascript, MongoDB, Express, Hapi, ReactJS
