---

WORK EXPERIENCE

Jul 2015 – Nov 2015   **WCRS | Integrated Marketing and Advertising Agency** – *Web Developer*
- 4 month contract, working with the Apple team within WCRS
- Front-end quality control, testing, error and bug fixing under tight design specification
- Rapid familiarisation with a large, unfamiliar codebase and resource management system
- Technologies involved HTML5, CSS3, SVN and Photoshop
- Worked abroad in San Jose with Apple in early September for their iPhone 6 launch

Jan 2015 – Nov 2015   **Founders and Coders –** *Full Stack Freelance Web Developer*
- Selected for an eight week competitive web development course
- Learned JavaScript and how to build web applications using NodeJS
- Every week was a new project and/or a new framework, to develop constant learning
- A further 8 weeks were spent working on commercial MVPs for real clients
- After graduation, I became a freelance developer working on MVPs and private projects

Squish Project - *Commercial MVP App*
- Our client wanted an app to remind students when their notes are due to be revisited
- He runs workshops that believe in revisiting notes 1,7 and 30 days after they were written
- Our 4-man team used ReactJS with Flux, NodeJS, Hapi, MongoDB, Nodemailer, MomentJS
- Users login using Google auth, notes are written and saved in a NoSQL database
- Users will receive email reminders, plus see their dates and notes on a custom calendar
- Progress is tracked and points are rewarded for viewing all their notes on the correct day

Stockport Suicide Prevention Project - *Commercial MVP Website*
- Our client wanted a responsive and accessible website, with simple functionality
- Our client had detailed design wireframes and style guides for us to implement
- Our team of two used Jekyll, Bootstrap, Flexbox, Github pages and prose.io
- Our end product is a beautiful and resourceful website allowing easy content editing

Jan 2014 - Present   **Private tutoring -** Maths and Science Tutor
- I tutor 4-5 students aged 8-16, from primary to GCSE level Maths and Science weekly

Jul 2014 - Dec 2014   **Sandwich Shop -** *Customer Sales*
- Worked part time at a sandwich shop, serving customers, cleaning the store, handling money and taking deliveries

Jan 2014 - Jun 2014   **Takeaway -** *Cashier*
- Worked part time at a takeaway, answering phone call orders and taking orders

Sep 2010 - Apr 2011   **University of London Officers Training Corps -** *Officer Cadet*
- I was an army reserve at university, being paid to train and learn leadership skills
- I would partake in weekly training sessions involving fitness and weapon handling
- Every month, I would spend a weekend out for field training

---

VOLUNTEERING

- Queen Mary, University of London Student Union - volunteering to help new students settle in
- Imperial War Museum Duxford - help setting up a photo exhibition and being a tour guide for guests
- CCIL - Mentoring, volunteering and band practice leader for many years at my church

---

SKILLS & INTERESTS

- Core skills - HTML5, CSS3, Javascript, NodeJS
- Frameworks and libraries I've learnt - jQuery, ReactJS, AngularJS, express, Hapi, Bootstrap, Phonegap
- Other skills - Photoshop, MongoDB, AWS, Git, SVN
- Native speaker in English and Cantonese, with intermediate Mandarin
- Enjoy working with computers, constantly learning and is fascinated by new technology; love to travel, exercise, compete in sports and cycling
